

MISSION STATEMENT

The Social Workers of Color (SWOC) is a networking group within the general membership of the PSCSW, of likeminded clinical social workers, who provide opportunities for education, support, self-care, and professional development which promote social and economic justice.

VISION

Our vision is to ensure that social workers of color are educated, informed, supported, empowered, and provided with a means to connect with the larger world of social work context, which will enable them to promote social and economic justice for all and to fully maintain the ethical standards of the social work field.
